## Woodfold Shutters - LEED® for Building Design and Construction V4

LEED® (Leadership in Energy and Environmental Design) Green Building Rating Systems for New Construction, Core & Shell, and Schools are a set of performance standards for certifying the design and construction of commercial or institutional buildings and high-rise residential buildings of all sizes, both public and private. The intent is to promote healthful, durable, affordable, and environmentally sound practices in building design and construction.

Listed below are the LEED® Green Building Rating System categories along with information of possible LEED® credits that our Roll-Up Doors may contribute towards:

1. **Integrative Process.** This category does not apply to our product.
2. **Location and Transportation.** This category does not apply to our product.
3. **Sustainable Sites.** This category does not apply to our product.
4. **Water Efficiency.** This category does not apply to our product.
5. **Energy and Atmosphere.** This category does not apply to our product.
6. **Materials and Resources - MRc3 “Leadership Extraction Practices” Credit**
  - FSC Certified Wood. Woodfold is FSC Chain of Custody (COC) certified, our Certification No. is SCS-COC-001663. Our Shutters can be specified using FSC wood, please check with customer service for current availability.
