## Precise Custom Hardwood Shutters

Woodfold Custom Hardwood Shutters are designed to provide greater louver control, enhanced viewability and a lifetime of smooth, flawless operation. Moreover, absolute precision of sizing is ensured by checks in every step of fabrication, finishing and shipping, which explains our reputation for problem-free installation. Also, every order is protectively

wrapped and packed in its own custom-built carton to assure its arrival in perfect condition.

## Natural Hardwood Plus Durable Stains & Finishes

Woodfold hardwood shutters are custom-crafted of specially selected hardwoods to meet our stringent performance requirements. Fine, smooth grained hardwood provides an unsurpassed surface for smooth, lustrous finishes – vibrant paints and deep, rich stains able to match any existing millwork. Of course, we use only 100 percent water-reducible lacquer and acrylic latex products – finishes which

are not only environmentally safe, but also much more durable and long-lasting than solvent-based products.

## Specialty Shapes

We're able to meet virtually any architectural challenge, including arched or slanted windows, circular openings, and French door applications.

## Custom Hardwood Plantation Shutters
